

## TWIN Check-out System

JK MultiMedie +45 6474 1995

By means of the MIRAC TWIN System, the cash-register gate can be efficiently monitored.

The MIRAC Top Mirror (60 x 60 cm) is made from acrylic material and weights less than 1 kg, consequently it's easy to mount, regardless of the nature of the ceiling.

The Counter Mirror (14 x 20 cm) which is placed near the cash-register for the operator to look in, is supplied with an adjustable arm fixing.
